

9. The Time Traveler Stuck in a Tutorial Era

Genre: Fantasy Sci-Fi Comedy

Age Range: 16-30

Length: 30-60 Seconds

Emotional Themes: Frustration, repetition, disappointment

Scene Description:

A time traveler repeatedly arrives in the most boring and uneventful periods of history.

Monologue:

I was promised history. Great battles. Legendary heroes. Instead, I keep arriving in what feels like Chapter One of reality. Every era starts the same. "Collect ten herbs." "Help the farmer find his chickens." "Learn how to swing a sword." I've supposedly saved kingdoms before, but right now I'm stuck helping villagers complete beginner-level tasks. Time travel is just repetition with better scenery.
